

Russell T. Crockett

Russell T. Crockett, Jr. is Managing Partner & CEO of Aztlán Chemical, a Chloro-Alkali startup making cleaner chemicals using green energy. Aztlán will utilize a novel, proprietary ramping technology which pairs with wind energy to produce chemicals without the use of carbon. Russ will continue to serve as Principal and Owner of RTC Energy LLC, a management consulting firm he started in 2014. During his career, Mr. Crockett has served as Senior Vice President, Commercial at TPC Group, from 2008 to 2013. He was also Vice President, Chemical Sales Americas for Lyondell Chemical Company from 2001 to 2008. While at Lyondell, he also served as Vice President Responsible Care and Engineering, Channelview Hydrocarbons Plant Manager, Business Director, Aromatics & Fuels and Treasury Management Consultant. Russ began his career with El Dupont de Nemours & Co., serving in successive business and operations assignments.

Mr. Crockett holds an M.B.A. from University of Michigan and a B.S. in Chemical Engineering from Carnegie Mellon University.
